To Whom It May Concern,

I'm a Vancouver-based Compositing Supervisor currently working at EyelineVFX, bringing over 25 years of experience across Feature Films, Animated Features, and Episodic projects. Throughout my career, I've combined hands-on artistry with leadership, including over seven years as a Compositing Supervisor and an additional five years in senior and lead roles.

I've had the privilege of working directly with clients and VFX Supervisors to deliver visually compelling, story-driven work, while also overseeing the compositing needs of entire shows. My responsibilities have extended beyond creative execution to include supervising and mentoring compositing teams, managing assignments and briefs, developing methodologies and look-dev, and providing clear, constructive feedback throughout production.

Additionally, I've been involved in key production tasks such as bidding, interviewing potential hires, crafting submission notes for final deliveries, preparing annotations for outsourced vendors, on-set data wrangling, and hands-on compositing. I take pride in balancing both the technical and creative demands of the role, always aiming to support both the project and the team.

You can view a selection of my work, including reels that highlight my abilities as both a Supervisor and Artist, via the following link: <https://vimeo.com/showcase/11081895>. password: password

Thank you for your time and consideration. I look forward to the opportunity to contribute my experience and enthusiasm to your team.

Kind Regards,

Dan Rubin
